PREFACE

Ontario Regulation 362 (Waste Management - PCBs) under the Environmental Protection Act deals specifically with Polychlorinated Biphenyls (PCBs). Other regulations pertaining to PCBs include O. Reg. 347 (General Waste Management) and O. Reg. 352 (Mobile PCB Destruction Facilities).

Information on PCB Storage Sites is collected under O. Reg. 362 through the district/regional offices of the Ministry of the Environment (MOE). The MOE is divided into six regions:

Southwest
West Central
Central
Southeast
Northeast
Northwest

Each region is further sub-divided into districts (Figure 1 and Map A)

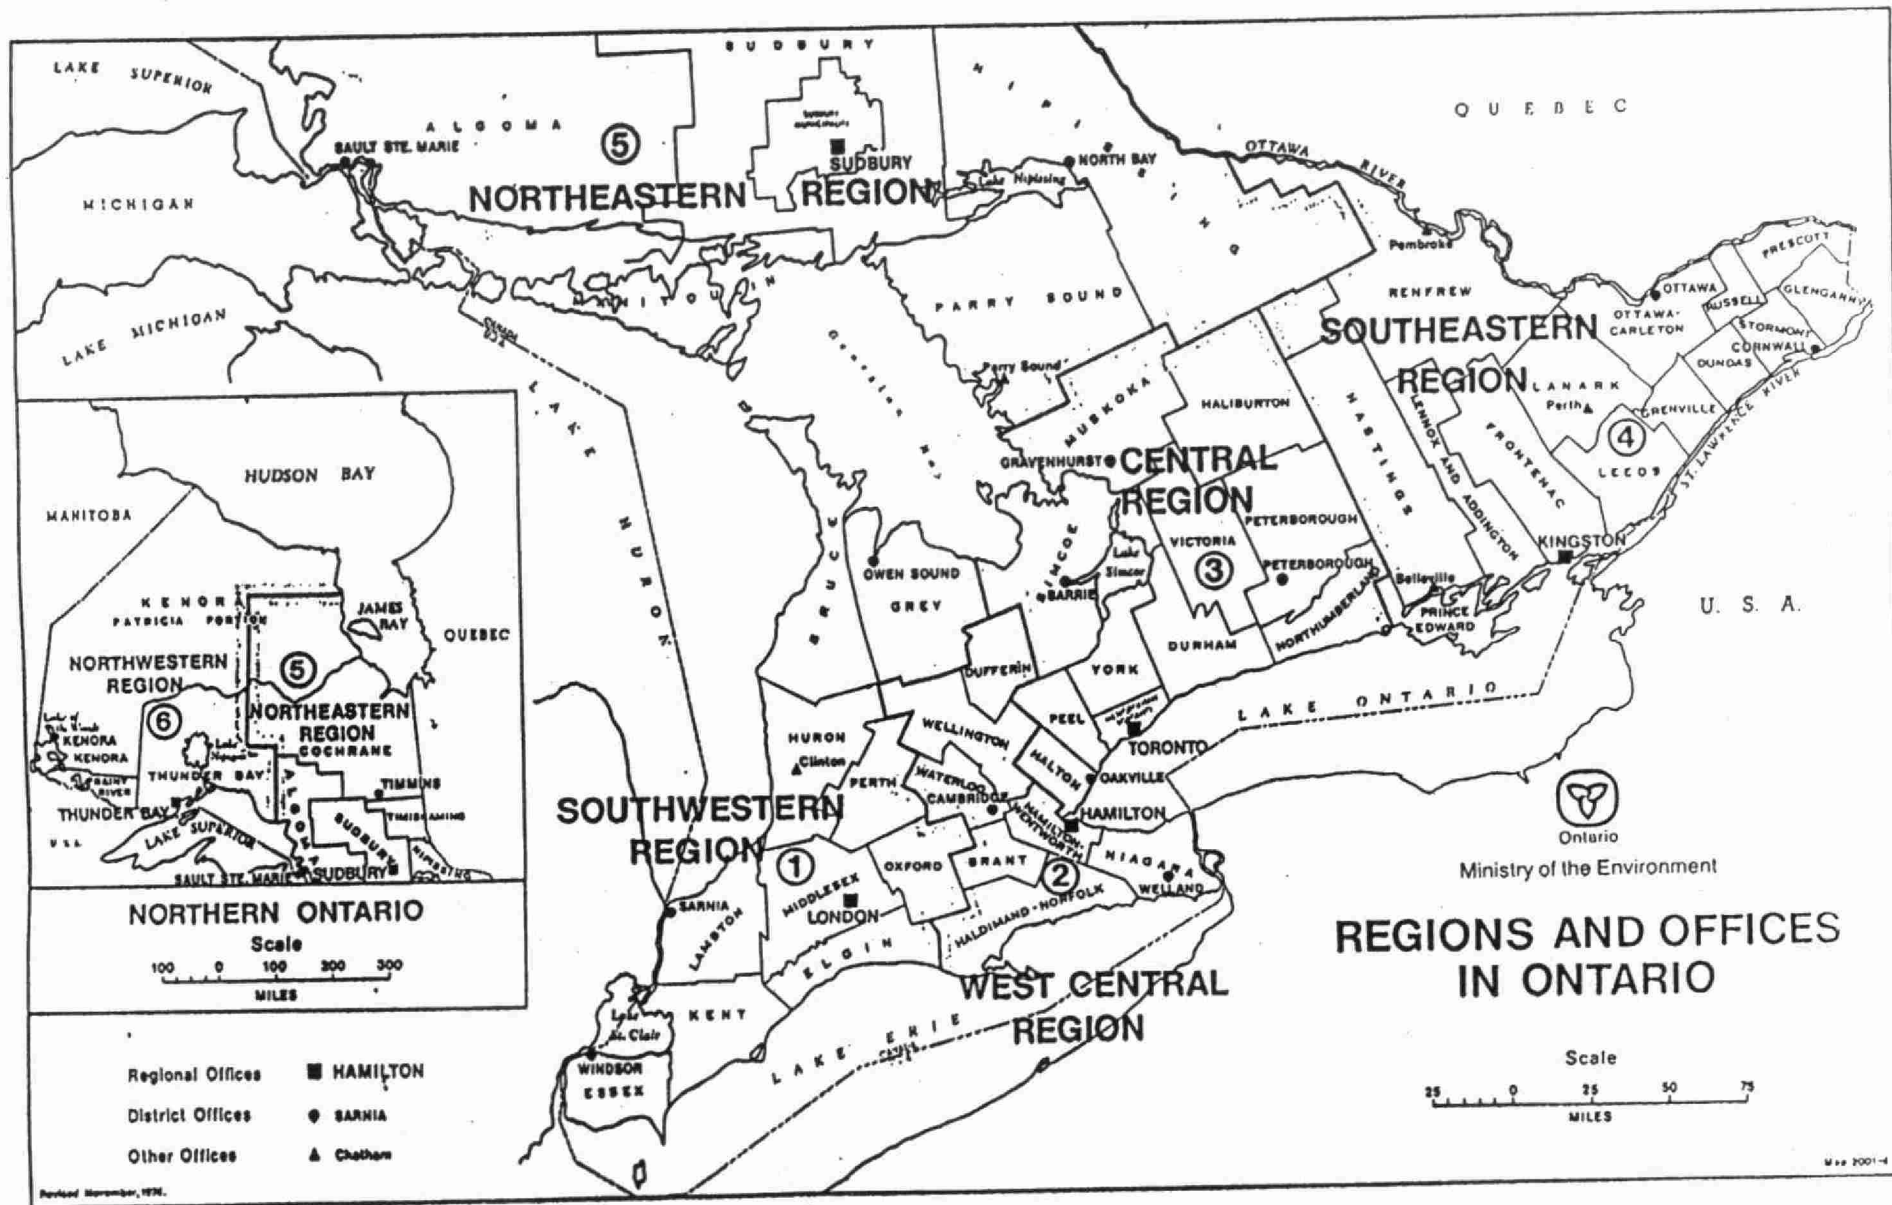

This publication is an Inventory of PCB Storage Sites in Ontario as of January, 1993. It does not include all Federal PCB Storage Sites which are under Environment Canada jurisdiction. There are currently just over 1500 active PCB Storage Sites in Ontario; however, the quantities and site information are constantly changing. Discrepancies noted in the inventory should be directed to the appropriate regional/district office.

This inventory of PCB Storage Sites in Ontario has been issued for information purposes only. The report has been divided into three sections: Summary of PCB Waste Quantities (Section A); Summary of Major and Minor Sites (Section B); and Ontario PCB Storage Site Inventory (Section C). All summaries have been sorted first by region and then by individual districts as noted.

SECTION A

SUMMARY OF PCB WASTE QUANTITIES

SUMMARY OF THE PCB WASTE QUANTITIES

The following is a summary of PCB waste quantities in Ontario.

Quantities are reported for the individual districts as well as totals for the regions and the province. Summaries include both High Level (> 10,000 ppm PCBs) and Low Level (50-10,000 ppm PCBs) liquid and solid totals in kilograms.

SECTION B

SUMMARY OF MAJOR AND MINOR SITES

SUMMARY OF MAJOR AND MINOR SITES

The following list summarizes the number of major and minor sites in the province of Ontario. A major site is one that contains liquid PCB waste in quantities greater than or equal (GE) to 1,000 kgs. A minor site contains less than (LT) 1,000 kgs of liquid PCB waste or any quantity of solid PCB waste. Summaries are sorted by MOE districts as well as totals for the regions and province.

ONTARIO PCB STORAGE SITE INVENTORY

ONTARIO PCB STORAGE SITE INVENTORY

The following is an alphabetical listing of PCB Storage Sites for the province of Ontario sorted by MOE region/district. The information consist of: Company name; site number; site address; MOE Region; County and Municipality; and an indication if the site is major and minor (see Section B for explanation of minor/major sites). Specific site discrepancies should be brought to the attention of the MOE regional/district offices.
